Looking for an Internship/Junior Developer Job

📞 +40753788658   @ zarnescurazvan@gmail.com   🔗 https://zarnescurazvan98.github.io/

SUMMARY

I'm a self-taught Web Developer looking for an internship or a junior developer opportunity to advance my skills and to create valuable products. Coming from an economic college background, I did not taught that I could learn programming without attending a specialized college, but through the words and guidance of others in the field, I tried to learn and quickly realized that I liked to create apps, to solve problems and to keep learning.

EDUCATION

Qualification: Analist Programator

FastTrackIT

📅 11/2019 - 06/2020   📍 Cluj-Napoca, Romania

- While learning the basics of programming and of web development, I
   developed skills that will help me in the future to learn more and improve my skills.

Economy of Commerce, Tourism and Services

University of Bábes Bolyai, FSEGA

📅 2017 - 2020   📍 Cluj-Napoca, Romania

- Studying economics helped me develop critical thinking and skills that
   help me every day when it comes to making financial decisions or even choices in general.
